

# Leonardo Academy

The Sustainability Experts®

LEO

Leonardo Academy is a 501 (c)(3) nonprofit organization founded in 1997 dedicated to advancing sustainability and putting the competitive market to work on improving the environment.

Leonardo Academy develops and distributes strategies, guidance, metrics, standards, education and information on how to increase sustainability. We also help companies, organizations, families, and individuals successfully promote, encourage, and implement sustainability.

Our integrated approach makes environmental sustainability very practical for everyone.

## Sustainability strategies that make good business sense.

Leonardo Academy provides a comprehensive approach to economic, social and environmental sustainability. Leonardo Academy provides services to companies and organizations to help them increase their sustainability. Leonardo Academy understands that careful investment in sustainable practices pays—whether it's in how you construct and operate your buildings, how you manage your emissions, how you produce your product, how you manage your procurement or your organization.

## Leonardo Academy services include:

### Organizational Sustainability

Leonardo Academy provides services that help companies and organizations understand, quantify, manage and communicate their overall sustainability and emissions. Leonardo Academy helps companies and organizations develop and implement sustainability strategies that make environmental and economic sense from emissions, to buildings, procurement, products and corporate operations. Services include developing annual sustainability reports.

### Sustainable Building Services and LEED®

Leonardo Academy helps building owners and managers implement LEED® in their buildings. We assist with assessments, strategy development, education, training, implementation, and documentation of achievements. Core competencies include LEED® implementation and application preparation. LEED® consulting services are provided for all of the U.S. Green Building Council's LEED® Rating Systems. For one building or a portfolio, for first-time certification or ongoing recertification, we can help.

### Emissions

Leonardo Academy helps companies, organizations and events develop emissions footprints and emissions reduction and offset strategies. We also provide emission reporting to the Cleaner and Greener Program®, the carbon disclosure project and many other programs.

### Sustainable Transportation

Leonardo Academy secures grants from the USEPA, states and other sources to support emissions reduction actions by stationary engine and vehicle/truck owners throughout the country.

**EDUCATION PROVIDER**

## Our History in Sustainability: Leonardo Academy has been an expert in sustainability from the beginning.

1997

2014

LEO prepares reports on economic benefits of reducing greenhouse gas emissions for the State of Wisconsin.

Joyce Foundation funds Green Energy Guide for Consumers.

US EPA funds the development of alternative multi-pollutant emission reporting guides.

LEO launches Cleaner & Greener® Program to reduce emissions.

LEO calculates and offsets emissions of Winter Olympics in Salt Lake City.

LEO becomes USGBC's LEED-EB technical consultant and application reviewer.

LEO becomes ANSI Standard developer.

LEO begins consulting for LEED projects.

LEO guides Clinton Presidential Center to Platinum LEED-EB recertification.

LEO guides National Geographic Society to Gold LEED-EB recertification.

LEO launches sustainability and LEED training programs.

LEO guides International Monetary Fund HQ1 & HQ2 to Gold LEED-EB recertification.

LEO guides second cycle of organizational sustainability analysis for the International Monetary Fund.

National Standards Committees of LEO-4000 and LEO-SCS-002 address Public Comments.

AFLAC  
Apogee Enterprises  
City of Madison, Wisconsin  
Clinton Foundation  
Diversey Inc.  
DuPont  
Energy Services Coalition  
Green Building Certification Institute  
Ice Energy LLC  
Indiana University  
IFMA Foundation  
International Monetary Fund  
Invista - Antron  
Johnson Controls  
Kohler Co.  
Oak Ridge National Labs  
Milliken Carpet  
National Association of Manufacturers  
National Geographic Society  
Philips Lighting  
Salt Lake Olympic Committee  
SCA Tissue  
Siemens  
Trigen  
U.S. EPA  
U.S. Green Building Council  
Wisconsin Dept. of Natural Resources  
Wisconsin Dept. of Administration

### Buildings We've Helped Achieve LEED® Certification

Clinton Presidential Library, Little Rock, AR,  
LEED-EB v2 Gold Certification

National Geographic Society,  
Washington, DC,  
LEED-EB Gold Recertification

Diversey Headquarters, Sturtevant, WI,  
LEED-EB v2 Gold Certification

### Additional Services & Programs

#### Training and Outreach

Leonardo Academy provides training (both in person and online) on organizational sustainability, LEED®, green building management, emissions issues, performance contracting and other topics. Leonardo Academy is a USGBC and AIA approved education provider.

#### Cleaner & Greener®

Leonardo Academy's Cleaner & Greener® Program provides certification of the level of emission reductions and offsets achieved by events, companies, organizations, buildings (fulfills LEED® EAc6), or individuals. For events we work with event organizers to quantify, reduce and offset emissions caused by events.

#### Green Supply Chain and Waste Management

Leonardo Academy helps companies and organizations develop, implement and track achievements of green procurement, supply chain and waste management programs. Start greening your supply chain and waste management today!

#### Sustainable Land Management

Leonardo Academy assists landowners in developing and implementing plans for sustainable land management, restoration and preservation.

#### Sustainability Certification Standard Development

Leonardo Academy is an ANSI-accredited standard developer and is currently developing standards for sustainable organizations, emissions inventories, reduction credits and offsets, sustainable gaming organizations, sustainable events, sustainable vehicles, sustainable agriculture, and a life-cycle impact profile declarations for products, services and systems.

#### Sustainable Living for Families and Individuals

Leonardo Academy provides a free guide to families and individuals on how to live more sustainably, including tips on operating homes, vehicles and maintaining yards with reduced environmental impacts. We also help families and individuals offset emissions caused by their homes, transportation, and lifestyles. Visit our WorldGreen® website for more information ([www.worldgreen.org](http://www.worldgreen.org)).
