Message From the President

It has been a very productive year for Leonardo Academy as we continue to help drive sustainability into practice on many fronts, including buildings, organizations, agriculture, emissions, gaming equipment, fire suppression, land management and more.

We have greatly expanded our training program to provide the practical knowledge to empower the legions to advance sustainability. We have conducted 19 live training webinars across the country, 19 live training webinars, and begin to offer on-demand webinars.

As a charitable non-profit organization our mission is to develop new approaches of sustainability and then work to drive them forward in the world. We are creating a sustainable world for all of us.

As 2011 approaches, please consider making a year-end charitable contribution to Leonardo Academy to support our work on advancing sustainability.

You can make your contribution online at: www.leonardoacademy.org/donate.html
