Message From the President

It has been a very productive year for Leonardo Academy as we continue to help drive sustainability into practice on many fronts: buildings, organizations, agriculture, emissions, gaming equipment, fire suppression, land management and more.

We have greatly expanded our training program to provide the practical knowledge to empower the legions to advance sustainability. We have opened 19 in-person public training programs across the country, 19 live training webinars, and begin to offer on-demand webinars.

As a charitable non-profit organization our mission is to develop new approaches of sustainability and then work to drive them forward.

As 2011 approaches, please consider making a year-end charitable contribution to Leonardo Academy to support our work on advancing sustainability. You can make a contribution online at:
