Message Fr
on the President

It has been a very productive year for Leonardo Academy as we continue to help drive sustainability into practice on many fronts: for buildings, organizations, agriculture, emissions, gaming equipment, fire suppression, land management and more.

We have greatly expanded our training program to provide the practical knowledge to empower the legions to advance sustainability. This year we provided 47 in-person public training programs across the country, 19 live training webinars, and begin to offer on-demand webinars.

As a charitable non-profit organization our mission is to develop new approaches of sustainability and then work to drive these into practice. As 2011 approaches, please consider making a yearend charitable contribution to Leonardo Academy. You can make contribution online at: www.leonardoacademy.org/donate.html

Press Releases:

Thursday, November 4

Sustainability Assessment of the Fire Suppression Industry
Tuesday, November 9
New Officers and Member Announced; Meeting Now Scheduled for March for the National Sustainable Agriculture Standards Committee
