Madison, WI January 9, 2008—Leonardo Academy announced today the release of the post-event emissions offsets report for the CB Richard Ellis Group, Inc. September 2007 World Conference and further announced that this event has earned Gold Level Certification for offsetting event emissions under Leonardo Academy’s Cleaner and Greener® Certification Program. To earn this level of certification, the CB Richard Ellis conference offset more than 200% percent of its carbon dioxide emissions that affect climate and more than 60% of each of the emissions covered by the program that affect health. The final report, containing graphics that show the sources of the emissions, the emissions and the offsets, can be downloaded from:

www.leonardoacademy.org/Resources/reports/index.htm

The Leonardo Academy’s Cleaner and Greener® Program certifies organizations and events for offsetting emissions from energy use. This program addresses the emissions that impact both human health and climate. Leonardo Academy worked with CB Richard Ellis to calculate the emissions caused by this event and gathered donations to support offsetting these emissions. Michael Arny, President of Leonardo Academy, said, “Reducing and offsetting emissions that affect climate and health is a critical part of reducing our environmental impacts. Everyone can take action and follow the leadership of CB Richard Ellis and the donors that supported these emissions offsets.”

In Kind Offset Donations:

Bull Frog Power (www.bullfrogpower.com), a provider of 100% clean, renewable energy based in Canada, donated 59,077 kWh of renewable electricity generated by wind power and low head hydro to help cover the electricity used by the conference center for the event.

Basin Electric Power Cooperative, a consumer-owned, regional cooperative based in Bismarck, North Dakota, donated 1,958,480 kWh of green tags from their waste heat recovery projects located in North Dakota and South Dakota.

Financial Donations to Purchase Offsets:

Major donors that funded the purchase of emission offsets for the conference included: EMC (www.emc.com), Energy Advantage (www.energyadvantage.com), SANZ (www.sanz.com), Sun Life Assurance (www.sunlife.com), Sustainable Finance Ltd. (www.sflnet.com), MDEnergy, and (
