

The American National Standard (LEO-5000) for Emissions Inventories, Offsets, and Reduction Credits standard was approved as an American National Standard by the American National Standards Institute (ANSI) on August 9, 2011. This standard was developed under the rules of ANSI. The ANSI standard development requirements provide for an open, balanced and transparent standards-setting process that is internationally recognized. Leonardo Academy, an ANSI-accredited standards development organization (SDO). To receive information on the use of this standard contact Leonardo Academy at: []
