Leonardo Academy Sustainability Services for Walmart Suppliers

Leonardo Academy provides comprehensive sustainability services:
That help Walmart suppliers address the sustainability issues raised in:

- Initial Walmart sustainability survey questions and
- Follow up sustainability questions sent to suppliers in December 2009

Leonardo Academy: We are the Sustainability Experts® and we can help Walmart suppliers:

- Respond to Walmart’s sustainability questions to each supplier
- Implement the sustainability actions that will support a lot of “yes” answers to the questions
- Get ahead of the curve by implementing sustainability actions beyond what Walmart is asking about now.

Leonardo Academy can help your company:

- **Energy Use:**
  - Inventory energy use
  - Identify and document past and current energy use reduction actions and programs
  - Identify additional energy use reduction actions and programs
  - Develop energy use reduction strategies and targets
