

Leonardo Academy provides comprehensive support to help building owners and managers implement LEED® for New Construction (LEED-NC), and also referred to as LEED Building Design and Construction (LEED BD+C).

Leonardo Academy supports LEED-NC implementation services for:

- First time LEED certification of buildings under LEED-NC
- LEED-EB recertification of buildings first certified under LEED-NC
- LEED-EB implementation as part of LEED-NC projects

Leonardo Academy's LEED-NC support services include:

- Development of sustainability achievement objectives for the building and site
- Development of implementation strategies
- Participation on design team
- Providing training
- Performance tracking during construction
- Certification application preparation
